experts in seating[®]

Doing your job with ease, that's professionalism. This also applies to our seating solutions. After a day of working on one of our chairs, you still feel great: no lower back pain, no sore shoulders, and no restless legs. We are professionals who invisibly take care of other professionals, and we are proud of that. With Score, you are seated well.

There is no universal work chair. That's why at Score we have developed different seating solutions for four major sectors: Dental, Medical, Industry and Office. Every chair is designed with attention to the specific demands of the workplace and the user. We translate the ergonomic needs of your industry into a comfortable seating solution so you can work ergonomically and comfortably.

We've got your back!

adjusting your saddle chair for the ideal seating solution

At Score, we know that a comfortable workplace is the foundation of a good workday. Our saddle chairs are designed to support you in all your activities. Sitting healthily and working comfortably is what you do on a Score saddle chair. These stools combine the benefits of standing with the stability of sitting, resulting in a straight, comfortable posture for your back, neck, shoulders and arms. This way, your body functions optimally. You feel fitter, can concentrate longer, and still have energy at the end of the day.

make your workday more comfortable with these accessories

- ④ A fully adjustable lumbar support: This can be essential if you sit for long periods. It provides the support you need to relieve your back muscles.
- ④ Base varieties: A standard base is \varnothing 54 cm, but for smaller spaces, you can choose a \varnothing 50 cm base.
- ④ Castors: Our saddle chairs come standard with soft castors \varnothing 65 mm brake unloaded. Choose the right castors based on your floor type: soft castors for hard floors and hard castor for soft floors.
- ④ Optional 360° support: This rotating support can assist with various tasks. Use it as arm support or lumbar support for extra comfort.
- ④ Optional foot control: This allows you to adjust the height of your saddle chair with your foot, so you can keep your hands free and clean.

the score apical for healthy support

The Score Apical is a real investment in your health. This chair is designed for an active and healthy sitting posture, which can minimize neck and back pain in the long term. It may take some getting used to shifting the focus to a healthier posture. With a few simple adjustments, you can personalize it to your body and create an ergonomic workplace.

why choose the score apical

- Ⓢ Standard pelvic support: Promotes a natural posture and helps prevent a rounded back, which is essential for good sitting posture.
- Ⓢ Adjustable backrest angle: Provides extra support and helps you optimally adjust your sitting posture to the task you are performing.
- Ⓢ Ergonomic seat: The shape of the seat helps keep your legs at an open angle, ensuring good circulation and less strain on your body.
- Ⓢ Simple height adjustments: Adjust the height of the chair to your body height, so you are always seated comfortably and upright.
- Ⓢ Smooth-rolling castors: These automatically brake when you stand up, allowing you to move safely. The compact base ensures you can easily work around your patients.

choosing the right saddle chair

how to choose the right gas lift?

The correct height of your saddle chair might be the most important aspect when choosing the perfect model. You don't want your feet hanging above the floor – that's really uncomfortable.

Use the gas lift lever to adjust the saddle chair so that your hip angle opens and your feet rest flat on the floor. This ensures a relaxed posture.

Seat height Score Amazone	Adjustable seating angle or Balance with lumbar support	Fixed or adjustable seating angle without lumbar support
Low (ca. 49 - 63 cm)	< 165 cm	< 160 cm
Standard (ca. 59 - 77 cm)	160 - 185 cm	155 - 180 cm
High (ca. 63 - 88 cm)	> 170 cm	> 165 cm

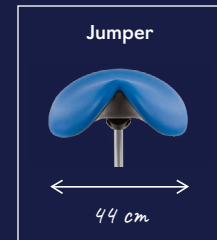

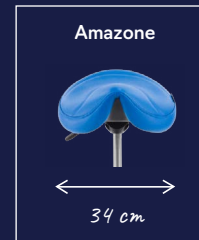

Seat height Score Jumper	Adjustable seating angle or Balance with lumbar support	Fixed or adjustable seating angle without lumbar support
Low (ca. 49 - 63 cm)	< 170 cm	< 165 cm
Standard (ca. 59 - 77 cm)	165 - 190 cm	160 - 185 cm
High (ca. 63 - 88 cm)	> 175 cm	> 170 cm

what is the perfect fit?

With the saddle chair, you can choose between two seat shapes: the Amazone and the Jumper.

The Amazone has a narrower seat, ideal for people who prefer a smaller, open hip angle and value more freedom of movement. The Jumper has a wider seat and offers more stability, which is nice when working in the same position for longer periods and needing extra support.

3

which mechanism do you choose?

You can choose the unique adjustable Balance mechanism, which ensures that the seat subtly moves with you. This positively affects your muscles and spine and helps you stay seated dynamically. Or choose a fixed or adjustable mechanism. With a fixed mechanism, the sitting angle remains constant, while with an adjustable mechanism, you can lock the seat at a desired angle.

4

extra support?

Need extra comfort while working? Consider lumbar supports, armrests or the versatile 360° Support. This rotating support can serve as an arm, lumbar or even abdominal support, ideal for various tasks. And want to keep your hands free? The foot control is a handy option to adjust the height of your saddle chair easily while keeping your hands free and clean.

energy and ergonomics

At Score, we believe in creating a comfortable workplace. Our saddle chairs, the Score Amazone and Score Jumper, are designed to support you during long workdays. Thanks to the Balance mechanism, both models offer dynamic support, contributing to an active sitting posture and better circulation.

score amazone

The Score Amazone has a narrower seat, ideal for people who prefer a smaller open hip angle and consider more freedom of movement important.

score jumper

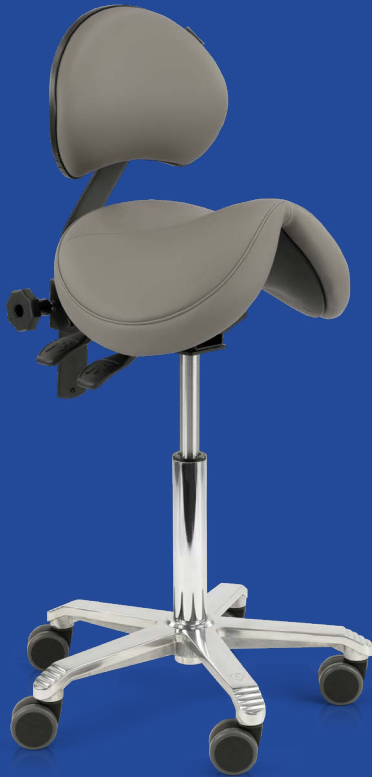

The Score Jumper has a wider seat and offers more stability. This is ideal when working in the same position for extended periods and needing extra support.

score amazone

- Narrower seat (30 cm x 34 cm)
- Compact and manoeuvrable for small spaces
- Optional with adjustable lumbar support

score jumper with adjustable lumbar support

- Wider seat (30 cm x 44 cm)
- Available with or without adjustable lumbar support
- Suitable for various work settings

general features

- Ⓢ Supports sit standing for more energy
- Ⓢ Encourages an active sitting posture
- Ⓢ Choice of various fabrics for your style
- Ⓢ Easy height adjustment for optimal sitting comfort
- Ⓢ Easy to clean for hygienic workplaces

choose your ideal seating solution

At Score, we aim to ensure that you sit healthily and work comfortably so that you feel fit and flexible. Our ergonomic seating solutions are designed to make a difference. We believe that sitting can be healthy, especially with a saddle chair that promotes active sitting.

To find the perfect seating solution, it's important to try out different models. Once you know what you want and have found your ideal product, you can easily check your choices on this page. This way, you tell your dealer exactly what version you want. Convenient, right?

fabrics and materials

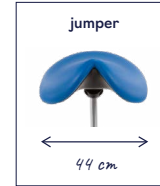

Every work environment has unique requirements and our seating solutions offer a range of upholstery and materials to meet these needs. Choose from a wide colour palette with features such as moisture resistance and flame retardancy. For extra hygiene, you can choose seamless upholstery, perfect for environments where that is essential.

Want to match the upholstery of your treatment unit? No problem! In many cases, we can take care of the upholstery for you for an additional fee. Ask your dealer about the possibilities or find more information on our website.
